

## **ZKSOFTWARE SCR100**

### **Features:**

- Elegant design with Acrylic plastic
- Revolutionary products in industry with TCP/IP interface, avoid RS485 communication and low speed for transferring data, standalone or network deployment
- Protect the data with encrypted technology
- Professional access control function: 50 time zones, 5 groups, 10 open door combination, support multi users entry
- Built-in relay contacts lock, alarm, door sensor & exit button .
- Wiegand input&output enable Master/Slaver access control .
- Embedded webserver: support browser to inquire access data at local or remote .
- No LCD and no keypad enhance the functions of waterproof and dustproof .
- ZK professional access control software for management

## Benefits

- Card Holders: 30,000 cards
- Transaction Capacity: 50,000 events
- Read Range:5-10 cm
- Reading Time (Card):<30mS
- Platform:ZEM500 (Embedded Linux O/S) .
- Communication: RS232/484,TCP/IP .
- Built-in Relay for Door Sensor, alarm, EM-Strike/Magnetic lock, exit button .
- 26 bit Wiegand Input/Output .
- LED Indicator: 3 Color LED Indicators(Blue ,Red and Green) with audible beep
- Blue: Normal standby mode
- Red: Access denied
- Green: Access granted
- Power/Current: DC12V/ Max.3 A
- Dimension (W x H x T): 153x95.5x35.5mm
- Operating Temperature: 0°C-45°C
- Operating Humidity:20%-80%
- Optional functions: Mifare/HID/ iClass card, Web server, Anti-pass back
